SHOWCASES & COUNTERS

## ultimate showcase style and versatility

Finished to exacting standards, Team's sophisticated multi-purpose showcases and counters are easily configured to create stylish, functional displays.

From standard showcase configurations such as glass display/storage units and open glass displays to custom designed cabinets and showcases, the Team range provides the solution.

Team's standard showcases and counters are created from a multi-purpose aluminium based system. Team extrusions are quickly configured to create functional display units and ASI's Team program allows you to choose the exact style, colour, finish and options you desire from the standard configurations available in the range - all at the touch of a button.

For a totally individual look and feel, ASI have the facilities to design and manufacture custom styled display units quickly, efficiently and cost effectively. You can create speciality displays for promotional purposes, glass to glass showcase displays or design stylish customised fixtures to reflect a brand, store or corporate image.

From one unit to one thousand, ASI's Team Showcases and Counters offer ultimate style and versatility.

Pet Display Enclosure  
-St. Marys Pets, NSW

Jewellery Display Showcase  
-Fossil, Bondi Junction

Wall mounted Team Showcases  
and custom storage units  
- Accessories by Touche, Sydney NSW
