

Shoe store featuring Ultrapuck device and oval shoe shelf

ultrapuck™

# ultrapuck™

the sleekest  
lightweight display

Ultrapuck is the sleek solution for cost-effective, lightweight displays, ensuring merchandise is displayed to maximum advantage with minimum intrusion.

Inserted from the front, this durable injection-moulded PVC Puck system requires no rear fixing and can be produced in a wide range of colours (subject to minimum quantities) to perfectly complement any merchandising environment.

Friction-fitting into the Ultrapuck backplate, these accessories offer a unique look. Both the Ultrapuck backplate and accessory range are simplistic in design, requiring a limited number of components for easy installation.
